

EZMU006 - Ghoul

Terms

Setting the makeup: a process of keeping the makeup on longer and reducing smudging by sprinkling a small amount of setting powder onto a powder puff, folding the puff in half, and rubbing the powder into the puff, then lightly shaking off the excess powder from the puff and pressing the powder and puff into the makeup.

Base color: a makeup color that is used to represent the overall desired color of the character. You may wish to remove the makeup colors from the plastic palette for ease of use.

Stippling or patting makeup on: a process where cream makeup is applied using a sponge to apply the makeup with an up and down motion instead of a streaking motion.

Application Instructions

1. Begin with the makeup palette and a white makeup sponge. Apply the deadguy grey makeup over the entire face and neck, being careful that you don't get makeup in the eyes.
2. Using the clean side of a white makeup sponge or brush, apply the undead purple makeup into the areas shown, and blend away the hard edge. Apply to the inside corners of the eyes, under the eyes, under the jawline, the contour of the neck, etc.
3. With the brush, apply undead purple over the top of the shaded areas in the manner shown, then use the black makeup to accent the purple lines.
4. Set the makeup with colorless powder and a powder puff. Remove excess powder with a damp powder brush or damp tissue.

You may want to use a temporary hair spray colorant for a completed look.

Removal

Use a small brush or cotton swab to rub a small amount of Cinema Secrets Makeup & Adhesive Remover onto the skin. Be careful when working around the eyes, to not get any remover in the eyes. Rinse the skin using a towel and warm water.
