

Includes:

Devil Nose & Chin
Small Devil Horns
Spirit Gum
Red Makeup
Black Makeup
Makeup Sponge

FX008 - Devil

Step 1 - Always start your makeup with a clean, dry face. If you need moisturizer under the makeup, make sure it is water-based type, as it will be absorbed in the skin faster and will not leave an oily coating on the face. If applying makeup to several people we recommend scooping a small amount of makeup out and putting it on a palette, this will help prevent the spread of germs.

Step 2 - Hold the Woochie Devil Nose over your own nose to determine the proper fit and placement. Although most of the appliances can be worn on several size faces, take the time to check the size of the piece to that of the area desired for application. You may prefer to trim some excess edges before applying some appliances. When trimming edges, try to leave at least 1/4" around the base of the appliance.

Step 3 - On clean skin, brush or swab Cinema Secrets Spirit Gum onto the face. Take care not to apply in an area larger than base of the appliance. Using your index finger or a Makeup Sponge, tack the surface with a light up and down motion. This helps to increase the adhesion of the Cinema Secrets Spirit Gum.

Step 4 - Place the appliance over the adhesive and press into place. You may powder any exposed areas of sprit gum.

Step 5 - To apply Chin, follow the complete steps listed above.

Step 6 - To apply Woochie Devil Horns, brush on the Spirit Gum in an area the size of the edge. The edge may be cut smaller if needed. Place the Horn over the Spirit Gum and press into place. Press the edges intermittently with a sponge until all edges are firmly adhered. Repeat same steps for the other horn.

Step 7 - For a more professional look, the edges to the appliance may be stippled with a thin coat of Cinema Secrets Flesh Latex, using a makeup sponge or black stipple sponge. Allow the latex to dry before applying a second coat. Remember that two thin coats will dry faster than one thick coat. You may use a hair dryer to speed up drying time. Powder the dry latex when finished. Dust off excess powder.

Step 8 - Cinema Secrets Makeup or Rubber Mask Grease Makeup may now be added. Using a section of latex sponge, pat on the red makeup sparingly. When using a regular cream base makeup, you may want to first sponge on a thin layer of Cinema Secrets Castor Sealer to seal the latex. This will prevent the makeup from lighting up over time. The addition of highlights and shadows are then applied over base coat. This is achieved by applying lighter and darker makeup colors. The makeup should be set with Cinema Secrets Colorless Powder to prevent it from rubbing off.

To heighten your design, you may add additional Woochie & Halloween FX items. Note that most of the following optional items come complete with their own packaging: Devil Ear Tips, Scars, Blood Gel, RedBald Cap, FX Hair, Castor Sealer, Fangs, Colorless Powder, Small Devil horns. You may add a pair of Large Woochie Devil Horns. Make horns point forward from the side of the face and cheek area for a great look.

Removal - To remove all makeup, use soap and warm water, however it is best to use the Cinema Secrets Makeup & Adhesive Remover. Put a small amount into your hand and using the pads of your fingertips, massage into makeup. Work in circular motions, being careful not to get any in your eyes or mouth. If some should get in your eyes, flush them with plenty of cool water

Note: If you use your fingers to apply makeup, the oils in your fingers will work to break down the makeup. The makeup will not last as long or provide a smooth even coverage.

WARNINGS:

If you are sensitive to latex, discontinue use. Do NOT use around eye area. Do not ingest. Not intended as a food product. Not intended for children under 8 years of age.
