

WO503 - Woochie® Devil Finger Extension Instructions

Preparation

If you plan to use makeup on your hand to help blend the finger extensions, make sure your hands are clean.

Makeup Application (optional)

Using a makeup sponge apply red cream makeup to the hand and part way down the fingers. You want to cover any skin that will be exposed once the finger extensions are in place. You may want to add some detail using black makeup mixed with some of the red to create a darker red color. Set the makeup with colorless powder and a powder puff. As an alternative to makeup, you may also use fingerless gloves to cover the exposed hand.

Using the Finger Extensions

Simply slide the finger extensions over your fingers. Make sure you use the correct extensions on the appropriate fingers.
